

- Description** : Mercury Free Super Heavy Duty Battery,
AAA Size
- Chemical System** : Zinc Chloride
- Nominal Voltage** : 1.5 Volts
- Nominal Dimensions** : Ø10.5 mm x 44.5 mm
- Terminals** : Protruded positive (+) and
flat negative (-) contacts
- Jacket** : Metal jackets with PVC tube insulation
- Applications** : All electronic devices, e.g. toys,
photographic equipment, data banks,
calculators, audio appliances, remote
controls, paging machines.
- Shelf Life** : 24 months
- Average Weight** : 9g

Typical Service Life:

Discharge Resistance	Discharge Condition	End Point Voltage	Service Life
10.0 ohm	1 Hr/Day	0.9V	2.5 Hours
